

AMINOPL

Natural Organic Fertilizer and Stimulant NPK 2:0.7:0.7

All ingredients in Amino Plus are derived from organic sources and the natural organic chelating agents ensure that the nutrients and minerals are in a readily available form. Thus Amino Plus is more effective than many conventional, higher analysis, liquid fertilizers.

Benefits of Amino Plus include:

- rapid and complete uptake of key nutrients;
- improved yields;
- increased soil microbial and earthworm populations;
- enhanced cell division resulting in increased fruit size;
- more root growth;
- better stress tolerance;
- improved efficiency of uptake of other applied fertilizers.

Application:

Amino Plus can be applied through spray or dripper systems or as a foliar spray.

Soil: 5 litres per hectare with a minimum 50 litres of water per hectare.

Foliar: 3-4 litres per hectare with a minimum 50 litres of water per hectare.

Availability:

Amino Plus is available in 20 litre, 200 litre and 1000 litre containers.

Typical Analysis (wt/vol):

Nitrogen (N)	2.1%	Phosphorus (P)	0.7%
Potassium (K)	0.7%	Sulphur (S)	0.1%
Calcium (Ca)	0.24%	Trace elements	
Growth promoters		Chelating agents	
pH	4
