

A range of micro nutrients are needed by plants in small balanced amounts to enable plants to perform important daily processes. Multi Mate is specially formulated to address a wide range of micro-nutrient deficiencies. Multi Mate can also be specially formulated to correct any particular deficiency problem in plants and crops.

Application:

Foliar: Do not apply more than a 1% solution in high volume sprays and no more than 3% concentration in low volume sprays under 50l/ha.

Fruit crops: 1.0 - 2.0 litres/ha. Minimum 2 applications from fruit fill.

Vegetables: 1.0 - 2.0 litres/ha as required. Apply when leaf area is sufficient to intercept spray.

Vine crops: 0.5 -1.5 litres/ha pre-flower and post fruit set.

Broadacre crops: 2.0 - 4.0 litres/ha every two weeks early in growing cycle.

Nursery plants: 0.5% Solution giving full leaf coverage every 14 days.

Cereal Crops: 0.5-1.0 litres/ha every two weeks early in growing cycle.

Fertigation/Soil Applications:

Apply as required but do not exceed 10 litres/ha per application. Several applications may be required.

Availability:

20 litre, 200 litre and 1,000 litre containers.

Typical Analysis:	%W/V
Nitrogen (N)	5.00
Sulphur (S)	5.00
Iron (Fe)	3.00
Manganese (Mn)	2.00
Zinc (Zn)	3.00
Copper (Cu)	1.00
Boron (Bo)	0.77
Molybdenum (Mo)	0.05
pH	2
